

March 2026

Lakeshore 2026/27 School Planning Meeting Notes & Survey Results

On March 18, 2026, Lakeshore School Administration reviewed the 2026/27 school planning process with parents in attendance for our scheduled March School Council meeting. The following are the summarized meeting notes and session survey results:

School Development Planning

- Excellent presentation. Clear communication. No questions or concerns.
- I'm very impressed the goals and outcomes. Hearing the school development plan really gives me hope that my child is being supported. I do appreciate that Middle School kids don't always ask for help. I'm so impressed.
- It sounds like the leadership is really strong and leading the teachers to address how to best target and support all students – not an easy feat.
- I believe the school development plan reflects the learning of all students. I appreciate the confidence building focus and sunshine emails. I think this build academic performance as well.
- Lakeshore is doing great with limited funding. Increasing funding to support teachers equals student development.
- Support for kids that are excelling and to challenge them would be great to see. I would like to see a plan for this.
- Can we get more information on our school ranking? What are our plans to improve standard of excellence?

School Budget and Fees

- The fees seem quite high. It would be nice to have a breakdown of what the fee covers (bus, program). Where is the money going?
- The activities our school provides are very important. Fees are reasonable.
- Can council pay to subsidize field trips? Maybe the council could help to support families who may not be able to pay for field trips.
- I can appreciate that some families may struggle to pay fees. Is there a way to support?

Presentation Survey Results

1. This meeting provided me with useful information: 100% strongly agree / agree
2. I understand the planning work schools do to improve and support student learning: 100% strongly agree / agree
3. I was encouraged to share my thoughts and feedback during this meeting: 100% strongly agree / agree
4. The presenters were easy to understand: 100% strongly agree / agree

5. The on-screen (visual) content was clear and easy to read: 100% strongly agree / agree
6. I had enough time to read the on-screen (visual) content that was presented: 100% strongly agree / agree

Presentation Survey Comments

- Engaging and insightful. Clearly communicated and easily understood.
- I like the information as presented on school development plan. Seemed a bit rushed.
- The information was clear. Thank you!
- Very informative and optimistic. Thank you to Principal Fero for taking the time to meet with us.
- The information shared was informative for a parent to know. More updates to parents would be encouraged.
- Would love to see more government funding for schools.
- Examples were provided and questioned were answered.
- Ian was engaging and approachable and explained things clearly and efficiently.
